SELECTMEN'S REPORT

The year 1968 found town officials faced with new legislation enacted by the 1967 Legislature in regards to increased fees for services rendered by the Town Clerk (Motor Vehicle Registration) and the Old Age Assistance Act (Resident Requirement) which was lowered from the former 5 year requirement to 1 year. At the time of the Municipal Budget Committee's preparation of the estimated expenditures for 1968 it was not known what effect new legislation would have on the anticipated expenditures. Line Budget Items due to increased costs, both material and labor, were as a whole held fairly close to the Budget Committee's proposed and approved figures.

The Selectmen wish to thank those Department Heads who were directly involved with the fluctuating costs for maintaining expenditures within their respective budgets. The Selectmen received the finest cooperation throughout the year from all branches that are directly involved with town funds so that the maximum amount could be realized from every dollar available.

The Selectmen wish to thank those who so willingly gave of their time to serve on various committees which are so necessary to management. We wish to thank the Planning Board for providing the Town with a new set of Zoning Laws which has provisions for us all to have a better town in which to live. I personally wish to thank Mr. Robert Volk and Mr. Byron Kirby for assistance whenever the response required sacrifices of their time beyond the scheduled requirements.

Dates to Remember

Property Inventory and Veteran Exemption blanks will be distributed on or before March 20, 1969.

It is of the utmost importance that every tax payer, owning taxable property, file an inventory form. The Town of North Hampton is anticipating a re-valuation and by State Law a Property Inventory must be filed if an appeal is to be heard.

Filing dates are between April 1st and April 15th. Requirements to be met are cited on the back cover of each form.

Mrs. Barbara Luther, Administrative Assistant to the Board of Selectmen is in the Selectmen's Office to assist the townspeople Tuesdays and Fridays 9:00 A.M. to 5:00 P.M. and Saturday morning 9:00 A.M. to 12:00 noon.

Selectmen meet every Monday night at 7:00 P.M.

The Selectmen herein report that the Town of North Hampton's Property Map is of this date, "up to date," on the Master Map, being drafted by John LaSuer, Engineer. Work also is progressing satisfactorily on Maps which will be available at the Town Office (for observation only) for lot and street numbers.

The Selectmen wish to thank Representative James F. Leavitt on behalf of the Town, for his assistance and cooperation on legislative matters in the State Legislature.

Respectfully submitted,

Maurice E. Kierstead, Chairman
Board of Selectmen

REPORT OF LIBRARY TRUSTEES

The librarian has reported a substantial increase in the circulation of books and magazines over the past year, namely, from 22,873 in 1967 to 26,514 in 1968. Accordingly, upon the recommendation of the librarian and the seeming demand of the public, the budget has been increased to cover the expense of opening the library another morning. This would make a total of twenty-two hours that the library would be open to the public each week.

The new foundation planting given by the Bush and Bud Garden Club, with the assistance of Mr. Byron Kirby, improved the library grounds and is greatly appreciated. Members of the garden club provided fresh flowers and at Christmas time furnished decorations inside and out. They presented a program on wildfowl conservation to the public.

The Woman's Club placed a purple martin birdhouse on the library grounds, assisted with the National Library Week Program and supplied the Christmas lights for the community tree. The club chose for their 1968-1969 Community Achievement Program to add books in honor of charter members to their Memorial Shelf.

The "Friends of the Library" held their usual monthly work-meetings. Several members attended a workshop to learn the most recent methods for mending books. They sponsored a benefit coffee and second-hand book sale. They gave records and a much-needed record browsing bin to the library.

In observation of National Library Week the Friends of the Library sponsored a program of Book Reviews by Marion Rudkin for the eighth consecutive year, also, an evening program with John J. Starvish, Jr., a former member of the Peace Corps, as speaker. There

were contests for children in the 4th, 5th and 6th grades with the winners taken on a tour of the Wentworth Coolidge Mansion and the Country Store at Strawberry Banke. Highlight of the week was a luncheon to honor Roberta Craig who had served as Librarian for twenty-five years.

In June the second annual Strawberry Festival and Country Auction netted \$592.85 for the Library Building Fund. Much of the success of this project was due to the efforts of Mr. Herbert Dyer, auctioneer, and the enthusiasm of the committee of Friends and volunteers who worked many hours acquiring donations. The VFW kindly gave the use of their Hall for the festival.

In response to a community-wide drive by the Friends, sixty-seven individuals or families took out memberships or became patrons. As a result, the Library Building Fund has reached a gratifying grand total of \$1,422.48. In addition, a \$100.00 Memorial Fund has been established. The trustees are very appreciative of the enthusiasm and interest that has been developed in the community due to the determined efforts of the Friends and are proud to know the drive will be an annual event.

During the past year trustees attended the six book-selection meetings held in the district, the annual meeting of the N. H. Library Trustees Association and two workshops. With the chairman of the Friends they inspected the Epping Library and the new addition to the Rye Library in a continuing study of the latest in library buildings and furnishings.

At the 1968 Town Meeting a Capital Reserve Fund of \$5,000.00 was established for library expansion. The voters will be asked to add \$5,000.00 to the fund in 1969.

LIBRARIAN'S REPORT

To the Trustees of the North Hampton Public Library :

The following is a report of the library from January 1, 1968 to December 31, 1968:

Number of New Books Added	552
adult fiction	229
adult non-fiction	102
juvenile fiction	153
juvenile non-fiction	68
Books Given to the Library	197
Book Circulation	25,025
Magazine Circulation	1,489
Total Circulation	26,514

The library was fortunate in receiving gifts of books and magazines, many of the type that we would not ordinarily have, because of the expense.

Librarians, Roberta Craig and Carol Grant, attended the Southeast District Advisory Council Meetings in Derry, as Delegate and Alternate; the Reference Workshops held in Bedford, as well as other workshops; and the Book Selection Meetings held at the different libraries in the Southeast District. These meetings are very beneficial to us and the library.

Roberta attended an extension course in Programs and Services for Children, at U. N. H., to be credited toward the certificate issued by the University of New Hampshire — in Public Library Techniques.

Our story hours during the month of August, for children entering the first grade, was received with pleasure. The thoughtfulness and help from the Mothers in story telling is very much appreciated.

Our Vacation Reading Program ended this past summer with movies and refreshments for the boys and girls who read the required number of books.

Patrons are enjoying our record collection made possible by gifts from the Columbia Record Company, and the RCA Victor Company, and the North Hampton Friends of the Library have given the library a new Record Browsing Bin, much needed, as our collection is growing.

The Fire Department responded to 76 calls for the year, which was 37 calls over 1967. The calls consisted of 23 still alarms, 7 Mutual Aid calls to surrounding towns, 2 resuscitator, 2 lost child, 42 box alarm. Five which were major fires required Mutual Aid from surrounding towns.

The Fire Department moved into the new station the first of February as planned.

The new Mack diesel pumper arrived the last week of March. It was underwriter tested and equipped during that week, being put into service April 1st, and has proved to be very satisfactory.

Open house was held at the station June 2, with the attendance of approximately 100 people. The tour of the building was conducted by the members of the Fire Department, with refreshments served by the Firemen's Ladies Auxiliary.

Through the efforts of the Firemen's Ladies Auxiliary, additional tables and chairs have been purchased for the Fire Department.

Hampton Police and Fire Departments for their many assists.

This is your Ambulance Corps, its members are standing by twenty-four hours a day, seven days a week should the need arise. They have but one goal, "Service with Distinction" to the citizens of North Hampton.

NORTH HAMPTON POLICE DEPARTMENT

There has been an increase in all police activities for the year 1968. It has been a decided advantage to have the cruiser on the road on a twenty-four hour basis. We have been able to prevent burglaries by frequent checks of the businesses throughout the night.

The Ambulance Corps is doing an excellent job and we wish to thank them for taking over these calls. Last year, we had 48 ambulance calls.

We have had a slight increase in narcotics cases but the parents of the young people who were involved have been very cooperative and the meetings and discussions in town have helped to educate both parents and young people to the dangers of using narcotics.

Respectfully submitted,

Mr. George Miller of the School Board presented the budget, each item separately - School Board and Budget Committee. The following items were held for discussion or questions regarding differences between the Budget Committee's recommended budget and that of the School Board: #210 - Teachers Salaries, #235 - Contracted services, #400 - Health Services, #610 - Custodial Salaries, #850 - F. Mr. Wayne Elliott made an amendment to the motion already on the floor that the amount of \$211,000.00 be voted on. It was moved to consider the question.

Mr. Claverie then asked to withdraw his motion. It was then stated that the amendment to this motion must first be acted upon.

It was moved by Mr. Claverie that we use the checklist and vote by yes/no ballot on the motion that the School Board's budget of \$211,000.00 be accepted as recommended.

Hand vote (standing) on balloting 49-48 - passed.

Action of motion - yes 89 - no 34 to accept the School Board's Budget of \$211,000.00 - passed - 123 votes cast.

Item #400 - Mr. Claverie of the Budget Committee recommended that the same consideration be given to the Nurse as that given to the teachers. The motion was made that we adopt the School Boards figure for item #400 - seconded - hand vote - passed.

Item #610 - Mr. Heglander made the motion that #610 be accepted as read - seconded - hand vote - passed.

Mr. George Miller made the motion that the Chairman appoint a committee of School Board Members and townspeople to look into possible land acquisition in the town for further school expansion and report back at the next school district meeting - seconded - hand vote - passed.

Mr. Wayne Elliott stated that we must have help from the state that we are one of few states in the union that receive no state aid for education. Also, Mr. Elliott stated that on behalf of the teachers of the North Hampton School District he would like to thank the citizens of North Hampton for their action at this School Meeting.

No further Business.

Report of the Superintendent of Schools

To the Members of the North Hampton School Board:

I respectfully submit to you my third annual report as Superintendent of Schools in the North Hampton School District.

During the Christmas season just passed the world was awe-stricken at the accomplishments of Apollo 8. The implications for us in the field of education are untold. We must move rapidly in curriculum change so that the material presented is updated, fresh, and meaningful. We at North Hampton are moving ahead on researching and revamping the curriculum offering in order to keep pace.

During the days just prior to the opening of schools in Supervisory Union 21 a special meeting of all district principals was held. The purpose of this session was to set the stage for improved public relations. The tone of the entire meeting was to stress the fact that there exists a communications gap between home and school. As a part of the program presented we invited representatives from the news media to a round table discussion. For approximately two hours a great deal of healthy dialogue was generated. The media specialists advised us as to the procedures we might follow to strengthen and bridge the gap. It was a most rewarding experience to say the least. I have seen in the relatively short time since that session until this writing some remarkable effort along the public relations front. Teachers are involved in this operation

and it is well that they should be. We need to 'tell it like it is' when we relate school matters to our citizens. Supervisory Union No. 21 is not alone in this communications lag for I have read that on a nationwide level over 50% of purposed bond issues for new school construction were turned down by voters. This indicates to me that citizens are not well informed on school problems. This situation has resulted through no fault of the taxpayers. Hundreds of school systems budget annually large sums of money to help foster good relations with the several "publics" they serve. This is money well spent provided the program is well developed and on-going throughout the calendar year. School men should realize that sound programs of public relations are not made up of gimmicks or "bags of tricks" but simply the ability to convert ordinary communication into something more meaningful and appropriate.

The problems yet to be solved in the schools of this state are closely tied to receipt of additional state financial assistance. The local taxpayer has carried an impossible burden in this state and there is widespread reluctance to shoulder additional expense.

During the course of the school year administrators and school board members alike keep a sharp eye on the enrollment pattern. Many of the items placed in the budget must reflect the enrollment projection.

At the end of November in 1967 there were 4175 students enrolled in the eleven schools of the Supervisory Union as compared to 4364 at the same time in 1968. This is a jump of 189 in one year. Let me take you back a bit further to compare enrollment of November 1966 with that of 1965. In 1966 there were 4000 students against 3890 in 1965 or an increase of 110.

There is a strong indication that our growth is being stepped up as time marches on . There is of course a whole set of obvious problems and urgencies connected with a rising school population that does not need discussion in this report.

The enrollment statistics as of January 2, 1969 are as follows:

Most of you are aware that the legislature assigns certain duties and responsibilities to school boards. I think it important to highlight these for the sake of review:

Some Responsibilities of Schoolboards:

1. To formulate written policies.
2. To employ a competent faculty and auxiliary staff and to determine their salaries, duties, and terms of employment.
3. To provide adequate buildings and facilities.
4. To authorize purchases.
5. To keep adequate and accurate records.
6. To comply with all existing school laws.
7. To maintain and evaluate the program of studies.

8. To determine, after study, future school needs.
9. To prepare a budget annually.

As you note these responsibilities are not all-inclusive of the kinds of tasks and involvements school board members are apt to deal with. However, this list gives the reader an idea as to areas of significant concern. The school board then delegates the superintendent as its "agent" to see that the responsibilities are understood and followed. The legislature outlines certain duties and responsibilities for each superintendent. Some of these are listed:

1. Enforce the rules of the school board and the State pertaining to schools.
2. Direct and supervise as well as evaluate the entire staff.
3. Nominate staff in compliance with the law.
4. Select and purchase materials with authorization of the school board and account for their use.
5. Keep and maintain records as requested by the school board and State Board of Education.
6. Remove staff members when circumstances deem it necessary in compliance with established procedures.
7. Fill vacancies and see to it that the schools are kept in operation.
8. Be ever mindful of pupil welfare and safety.

As school people we must continue to properly evaluate our methods and techniques used in teaching. This year teachers and administrators have spent considerable time in studying curriculum. Several staff members are enrolled in graduate courses offered by nearby colleges and universities. At this writing there are

two extension courses scheduled to commence in mid-January. One is offered by Boston University and will deal in family living education. This course will be held in the Seabrook Elementary School. The other, a University of New Hampshire course, will deal with the teaching of Reading scheduled to be held at the Marston School in Hampton. It is expected that some 60 or 70 teachers will enroll in these valuable courses.

The chart below lists the budget appropriations (exclusive of bond issues) for all districts in Union 21. This chart shows dollar amounts spent for costs of administration complete with the percentage factor. Also included in column III is the amount expended for instructional salaries with the appropriate percentage of the total budget. At the bottom is presented the overall totals and averages.

We are living in an inventive period and yet we are hesitant at building schools without interior walls, we are cautious about removing grade level barriers, we are slow at teaching inductively although Supervisory Union No. 21 is "breaking through" and reach-

ing for the spirit of these innovations. We have a willing conscientious group of instructors who are thumping at the doors of change and experimentation and for this we are pleased.

As in the past it has been my pleasure to be associated with your school in North Hampton. I have found your school board members extremely dedicated to the duties and responsibilities of their office. They serve many long and tedious hours attempting to solve school connected problems. Their cooperation with the administration is commendable. Your principal, teachers and other staff members are making a fine contribution to the educational program in North Hampton.

Respectfully submitted,
Paul L. O'Neil

REPORT OF SCHOOL NURSE

To the Superintendent of Schools and the School Board of North Hampton:

I respectfully submit the following report of the School Health Program in North Hampton for the school year 1967-68.

Routine Procedures carried out throughout the year include the following :

All pupils in all grades were weighed, measured, and had vision and hearing tests. Inspections of teeth, hair, posture and general cleanliness were done on all pupils. There were ten visual defects found and corrected. Four hearing problems were found and also corrected.

Dr. Sidney Baker, school physician, was assisted by Dr. Hugo Hochschild in doing physical examinations. Routine examinations were done on pupils in grades one, four, and seven and all boys participating in sports. The total number of pupils receiving examinations was two hundred and forty-four. There were forty-nine defects found and of these thirty-one were correctable. Urine tests for sugar and albumin were done in grades one, four, and seven as a part of the physical examination.

Tuberculin tests were administered to all school personnel. Pupils in grade one also received tuberculin tests. The total number of tests administered was eighty-seven. Flu vaccine was also administered to all school personnel if they wished to receive it. Twenty-six injections for flu were administered.

Emergency care of the sick and the injured involves a great deal of time. The total number of first aid

procedures administered was 1,473 during the school year. Notifying parents when students are ill or injured also involves time. The number of home visits and home contacts made by me was 381.

The Speech Clinic under the direction of the Portsmouth Rehabilitation Center was held one-half day a week. Fifty-one pupils were evaluated for speech problems and of these twenty-three pupils received therapy.

Health education is an integral part of the school program. The school nurse is available as a resource person to assist the teachers in the use of health materials, to assist in the planning and organization of health education classes and to aid in the curriculum development of health classes, as well as teaching some units.

Medical Self-Help classes were held in the eighth grade. This course consists of two classes a week for twelve weeks. It includes practice sessions on artificial respiration, bandaging, splinting and transportation of the injured. There were thirty-eight students participating in the class. A First Aid class was held in grade six with thirty-four students participating. Two classes a week are held. This is a basic course that covers all first aid procedures.

Other classes in health education were held at various grade levels in conjunction with the work of the classroom teachers. Some of the subjects covered were nutrition, personal hygiene, dental health, human growth, safety, goodgrooming, and family living. Time has been spent on a committee for the development of a course in Family Living. A complete outline of concepts to be covered in grades K through 12 was developed, along with a list of materials available for

each grade level. Following the development of the outline meetings have been held with the teachers to introduce the course in the school. The teaching of the course has been a cooperative effort on the part of all of the teachers and the nurse. A good program goes beyond the presentation of facts to work with the students feelings as well . . It seeks to make changes in children's attitudes and behavior. As an outcome of this unit it is hoped that the students will form favorable attitudes toward himself, others, family living, and reproduction.

Respectfully submitted,

Dorothy Staples, R.N.
